are growing and travelling...

- Laser tissue interaction
- Photothermolysis
- Laser safety
- Energy Based Devices
- Hair Removal
- Vascular Lesions
- Rejuvenation
- Pigmented Lesions

## COVERED TOPICS

### our success, your words

"It was an honor, to say the least, to have been in attendance with some spectacular doctors, as well as learning from a panel of phenomenal experts in the world of medicine, dermatology, plastic surgery and of course, lasers and energy based devices ... From Szeged I brought home increased knowledge and awareness to my craft... What an extraordinary gift and lesson!"
