

## ESLD @ IMCAS World Congress 2017

Saturday 28 January 2017, Paris

15:30 to 18:30

Session 145 - Room 3

### **Special benefit for ESLD members**

IMCAS is the world leader in medical education in the domains of **plastic surgery, dermatology and aesthetic science**. Welcoming over 7 000 participants each year, its World Congress in Paris is the reference worldwide.

This year, the **European Society for Laser and Energy Based Devices (ESLD)** unites and collaborates with IMCAS to organize a specific teaching course on Laser & EBD at the 19th edition of the congress on January 26 to 29, 2017.

As an ESLD member, by registering to this congress, you will benefit from a **complimentary one-year subscription to IMCAS Academy** (300 USD) allowing you to access at anytime, from anywhere, more than 900 videos (as of today!) and most of the lectures of the incoming congresses.

This exceptional offer requires each ESLD member to send an email to [registration@imcas.com](mailto:registration@imcas.com) after having registered for the congress online.

## **Lasers and EBD treatments of scars and scarring skin diseases**

### **A whole new world**

*Chairs:* [Ashraf BADAWI](#), [Hans-Joachim LAUBACH](#), [Anne Le PILLOUER-PROST](#)

#### **Scar prevention I**

- 15:30 | Pathophysiology of scar formation and HSP, [U. PAASCH](#)
- 15:40 | Possibilities of IPL in scar prevention, [P. BJERRING](#)
- 15:50 | Possibilities of PDL in scar prevention, [C. DIERICKX](#)
- 16:00 | Presurgical fractional photothermolysis treatment to improve cosmetic outcome, [M. HAEDERSDAL](#)
- 16:10 | Laser treatment before wound closure for scar prevention - a new concept, [H. CARTIER](#)
- 16:20 | When and how to suggest scar prevention to our patients?, [M. ABOZEID](#)

#### **Scar Prevention II**

- 16:30 | Combining toxins & laser / EBD to prevent scar formation, [W. SAUDI](#)
- 16:40 | Scar prevention specifics for facial surgery, [F. WILL](#)
- 16:50 | Growth factors and LED in wound healing?, [A. AL QAHTANI](#)
- 17:00 | Roundtable: questions & answers

#### **Scar management I**

- 17:10 | Fractional Photothermolysis in the management of atrophic, hypopigmented scars of the face and off-face, [G. GAUGLITZ](#)
- 17:20 | Hypopigmented scars treatment with Excimer laser, [L. KEMENY](#)

#### **Scar management II**

- 17:30 | Ablative fractional photothermolysis for severe contracted scars, [M. TRETTI CLEMENTONI](#)
- 17:40 | Laser assisted steroid delivery for hypertrophic and keloid scars, [A. LE PILLOUER PROST](#)
- 17:50 | Pulsed dye laser in combinations with subcision, steroid infiltration, fractional lasers, [G. VARJU](#)
- 18:00 | LEDs in scar management: a myth or the reality?, [M. CREUSOT](#)
- 18:10 | Pulsed dye laser for hypertrophic and keloid scars, [P. BONAN](#)
- 18:20 | Roundtable: questions & answers
